Achievement

Completed case study on Crop Deal which is a Web-based System where farmers can sell their crops to dealers.The farmer can register with all the details and can post his crops for sale here. The dealers can buy the crops that he/she is interested from the list of crops published by farmers and also make the payment throught the portal.

Crop Deal is implemented to make farmers' life easier by advertising their crops and selling them directly to the dealer, as it neglects all The commissions farmers pay to sell their crops.

Technologies used:

- ANGULAR
- ASP.NET CORE
- Microsoft SQL Server
